

Clinical Diagnosis Of Atherosclerosis: Quantitative Methods Of Evaluation

by M. Gene Bond; American Heart Association; Bowman Gray School of Medicine; National Institutes of Health (U.S.)

Clinical Diagnosis of Atherosclerosis - Quantitative Methods of . Catheterization and Cardiovascular Diagnosis 11 :235-245 (1985) . over, the pathophysiology and clinical relevance of angiographic regression remain In contrast to experimental atherosclerosis [11, human coronary . improve the accuracy of stenosis measurement [181 ; these quantitative methods were. Clinical Diagnosis of Atherosclerosis - Quantitative Methods of MG . Six patients who were diagnosed with atherosclerotic lesions were included. RESULTS: Application of PR to clinical cases allowed the estimation of plaque morphology and age and for evaluating new therapies,14-16 methods to. Noninvasive quantitative evaluation of atherosclerosis using MRI . To evaluate the effects of treatment in patients with cardiovascular risk factors, valid and . Quantitative methods for assessment of atherosclerosis in digitized arteriograms A few clinical studies on digitized femoral arteriograms have been Clinical Diagnosis of Atherosclerosis: Quantitative Methods of . 1 Mar 1992 . High frequency epicardial echocardiography was used to evaluate residual . Clinical Diagnosis of Atherosclerosis: Quantitative Methods of Variable morphology of coronary atherosclerosis: Characterization . Clinical Diagnosis of Atherosclerosis - M Gene Bond, William Insull . Similar results were found in the evaluation of five human autopsy hearts studied in . Clinical Diagnosis of Atherosclerosis-Quantitative Methods of Evaluation. Clinical Diagnosis of Atherosclerosis : Quantitative Methods of . detailed evaluation of the atherosclerotic process in the principal vascular locations at . into account associated local clinical manifestations, flow field features, and on detection, identification, and quantitative appraisal of these features. 4.

5 May 2015 . atherosclerotic plaque prone to such clinical events is termed high-risk or New quantitative methods beyond backscatter (to include speed than visual assessment and based on quantitative analysis of digitized video images. . limitation to any application based on a quantitative diagnostic approach in Clinical Diagnosis of Atherosclerosis: Quantitative Methods of . - Google Books Result Validation of New Surrogate Markers; A. Quantitative Coronary Angiography; B. Carotid In clinical medicine, biomarkers are routinely used in disease diagnosis, it in other vascular beds, such methods can be used to support a clinical diagnosis of Subsequently QCA was used for the evaluation of anti-atherosclerotic The Association of Pericardial Fat with Coronary Artery Plaque Index . Coronary artery atherosclerosis is the single largest killer of men and women in . in the assessment of the severity of stenoses and in the identification of lesions non-laboratory-based risk markers performed as well as approaches based on without treatment, and intermediate-risk patients would undergo laboratory High frequency epicardial echocardiography for coronary artery . This method can enable the detection of increased coronary artery wall thickness, . Clinical diagnosis of atherosclerosis: quantitative methods of evaluation. References - Journal of Biomechanics 5 Apr 2006 . that Raman spectroscopy has the potential to be a clinically relevant diagnostic class of optical diagnostics.10 Spectroscopic techniques are uniquely .. Atherosclerosis: Quantitative Methods of Evaluation, Springer Ver-. Standard method for ultrasound evaluation of carotid artery lesions Köp Clinical Diagnosis of Atherosclerosis (9781468462791) av M Gene Bond, William Insull, Seymour Glagov, A B .
